

Rendez-vous

Design Sergio Bicego

Anno di produzione 2019

Production year 2019

[It] — Rendez-vous è il nuovo sistema di sedute pensato non solo per la casa ma anche per gli spazi collettivi. Obiettivo del progetto è consentire un'estrema flessibilità compositiva con pochi elementi di base.

Il punto di partenza è una struttura metallica verniciata nera sulla quale si fissano i moduli orientandoli a propria scelta.

Il risultato è un appuntamento con il piacere estetico: angoli curvi da ritmare a linee pure per disegnare ambienti di elevata personalità.

I tavoli di appoggio, in due misure e due diverse finiture, sottolineano la funzione d'uso nei luoghi d'incontro.

Le imbottiture rispondono già alle specifiche richieste del mondo contract e a tal fine è stata scelta parte della collezione tessile.

Struttura

In multistrato di legno imbottito in poliuretano espanso 40IP per la seduta e 30IP per la schiena. Il tutto è ricoperto da velfodera accoppiata a fibra di poliestere 280gr/mq.

I ripiani sono in multistrato di legno impiallacciati in rovere naturale o tinto nero opaco.

Piedini

Basamento in metallo verniciato nero e piedi verniciati nero o black nichel.

[En] — Rendez-vous is the new seating system envisaged not only for the home environment, but also for public spaces.

The aim of the project is to allow upmost flexibility in configurations with very few elements.

The foundation is a metallic black painted structure on which various elements are fixed and can be moved according to the user's preference. The result allows for seated encounters with aesthetic pleasure. Curved angles contrast with pure lines creating interiors with strong personality.

The design of the side tables, in two measurements and finishes, underlines the functional needs in places of encounters.

The upholstery textile range includes the durable materials specified for use in commercial applications.

Structure

In plywood padded with polyurethane foam 40IP per seating and 30IP for backrest. All elements are covered with velfodera coupled with polyester fiber 280gr/sqm.

The shelves are in plywood with oak veneer natural or painted matte black.

Feet

Basement in black painted metal and feet in black or black nickel finish.

Centrali / Central units

Lounge

Fianco divano con base / Side sofa with base

Angolari DX-SX / Right-left corner units

Laterale DX-SX / Right-left side unit

Pouf

Ripiani / Shelves

Fianco ripiano con base / Side shelf with base

Esempi composizioni / Examples of compositions
